Betreff: urgent action request for supposed incommunicado prisoner Stephen Christopher Lennon aka Tommy Robinson

cc British Embassies in Berlin and Bern

Dear Amnesty Staff,

I would like to draw you attention to the arrest, prosecution, sentencing and disappearance of **Stephen Christopher Lennon alias** Tommy Robinson yesterday in Leeds.

Robinson was during a cell phone media live streaming near the Court house in Leeds apprehended by the Police and arrested for a supposed "breach of peace". At the same day he was supposedly sentenced to 13 months of prison time. Supposedly UK authorities have imposed a gag order to the press they shall not report about the incident. There is virtually no media coverage but a protest action took place today in London Westminster according to Youtube footage. Friends and supporters of Robinson are supposedly concerned Robinson may have been brought to a prison where he may face violence by inmates of Islam faith; in the past Robinson had been assaulted and beaten up by Moslem inmates in prison. Prison authorities supposedly had ignored the warnings that this might happen.

I ask you to investigate into this matter and release an urgent action for *habea corpus* because Robinson is apparently an *incommunicado* prisoner in the United

Kingdom and in danger to be handed over to violent prisoners, as happened in the past.

With kind regards

XXX XXX
